

MVAC150HB

HYDRAULIC CLAMPING BLOCK

Body
Steel
Black oxide finished

Part Number	Max. Usage Pressure (MPa)	Clamping Performance (kN) at 35 MPa	Area of Load in cm ²	Required Oil in cm ³	Weight (kg)	Proper Modular Vise	Proper Clamping Base
MVAC150HB	35	38.7	11.3	36.3	2.5	MVMF150 780	MVCM150CB 786

Features:

Single action

Application Example

Clamping block for hydraulic operation.
Use as a substitute for the manual clamping blocks.
Clamping block for hydraulic use of Modular Vises.

Note

When using on **MVMF150X***** MODULAR VISES or **MVCM150CB** CLAMPING BASE, the clamping range becomes shorter by 18mm.
